

**Singapore infocomm
Technology Federation**

Year Established	1982
Membership	<p>The Singapore infocomm Technology Federation (SiTF) is Singapore's premier infocomm industry association. It brings together members from MNCs and local companies who collectively account for over 80% of the industry revenues.</p> <p>The SiTF assists its members in business development, market intelligence, overseas trade missions, networking and alliances.</p>
Mission	<ul style="list-style-type: none"> • To be the national organization in Singapore leading and representing the infocomm industry and in partnership with relevant government, national and international organizations • Provide value adding services to our members • Promote the profitable growth of the Singapore infocomm industry • Encourage members to provide world-class products, services in Singapore and overseas
Activities	<p>SiTF adds value to our members through a holistic development program encompassing six areas:</p> <ul style="list-style-type: none"> ○ Marketing & Branding ○ Networking ○ Business Intelligence ○ Internationalization ○ Education & Development ○ Representation <p>As part of this program, SiTF and the Infocomm Development Authority of Singapore (IDA) have set up the Singapore Solutions Centre (SSC) in Shanghai to give singapore ICT companies a foothold into the China market.</p> <p>SiTF represents a dynamic industry that spans the spectrum of the ICT industry. To better represent and add value to specific industry segments, SiTF has set up eight chapters -- Best Sourcing, Digital Media, eLearning, eGovernment, Singapore Enterprise, Security, Web Services and Wireless.</p>
