A global event like no other, the Smart City & Future Commerce Convention 2017 is set to be Asia's hottest Smart City event in years to come!

Not content at being ‘just another Smart City event’, we’re going full force to co-curate and co-organise the region’s most unique and biggest smart and digital event ever to explore the impact of the confluence of the digital world, future commerce and urban living, and how smart & digital advances are transforming cities, communities, and individuals around the globe. Set to be a mega 3-day event, we will feature keynotes by top leadership personalities who are some of the best in their industries, on top of all-star panel sessions with CXOs and thought leaders in both Smart City and Future Commerce.

We’re shaking things up by putting our money where our mouth is — and co-hosting one of Southeast Asia’s biggest 48-hour smart city hackathons ever. The prestigious Malaysia’s Top E-Commerce Merchant Awards (TopECM) makes a comeback this year as we commemorate innovation, competition and excellence amongst local Malaysian digital commerce companies. And throughout all three days, there will be a massive exposition with 300 booths from service providers, vendors, tech giants, urban developers, and more from around the world and across Asia, right here in the heart of Selangor.
